

## Blood draw option for ELISA/ACT Biotechnologies testing:

### Phlebotomy Services International

Phlebotomy Services International (PSI) has been specializing in offering specimen collection services for individuals, small businesses, corporations and researchers for over a decade. We are pleased to recommend them as a blood draw option for you. Phlebotomy Services International (PSI) has both mobile services as well as walk in location options for your blood draw.

If you would like to utilize PSI for your blood draw, simply call them at **855-600-3722** and tell them you'd like to schedule a blood draw for your ELISA/ACT test kit. They will ask you if you would like a walk in location or a mobile phlebotomist.

PSI's blood draw fees are:

**\$55 for a walk in location**

**\$95 for a mobile phlebotomist to come to you, plus .55 (cents) per mile.**

PSI will accept your payment and schedule your appointment to have your blood drawn. Any questions about scheduling should be directed to PSI.

**Please note:** PSI will NOT have testing kits, you must have your testing kit. PSI, or the walk in location, will take care of shipping your blood sample back to us for processing.
